

Maxi Flow Water Filter System

Model: MFS1000 Replacement cartridge: MFC100

The WFS Maxi Flow water filter system is a great water filter for your home or office. Filtered water can now be used for drinking, beverage mixing, washing, rinsing and all your cooking needs at your kitchen sink. The Maxi Flow system filters all the water to your existing cold water tap. The system is easy to install and use. The easy to change filter cartridge has high capacity fibron media providing fine filtration. The system is complete with all installation fittings and s/steel flexible hoses so nothing extra is needed! The system reduces sediment, particles, chlorine, organics & unpleasant taste & odours. Note: The MFS1000 is designed to be installed under the kitchen sink where an existing isolating valve and separate cold water mixer s/steel hose is used.

Model: MFS1000
